This document is provided to users of the Electronic Logbook (ELOG). It provides details of the information requested by Fisheries and Oceans Canada (DFO) in electronic logbooks. The information contained in this document has no legal value and is made available for the sole purpose of helping users to complete the ELOG correctly.

## ELOG Key

In your software, be sure to enter the ELOG Key exactly as it is written on the DFO web site. An incorrect ELOG key will prevent you from successfully transmitting your logbooks to DFO.

DFO Client Support Agents can assist with ELOG related issues and can be reached at 1-877-535-7307 from Monday to Friday from 08:00 to 21:00 (Atlantic Time) excluding holidays. Additional up to date information on the ELOG Key is available at [www.dfo-mpo.gc.ca/elogs](http://www.dfo-mpo.gc.ca/elogs).

## DFO Client Support

If you have submitted your ELOG to DFO and find that you have made a mistake, please contact DFO Client Support at 1-877-535-7307 to request corrections to the information submitted. Telephone support is available Monday to Friday from 08:00 to 21:00 (Atlantic Time), except on statutory holidays.

Please refer to your licence conditions for additional instructions to be followed in situations where a fish harvester cannot properly transmit their ELOG data.

## ELOG Application Supplier Client Support

The ELOG Application Supplier should be contacted for assistance with any of the following type of issues:

- I don't know where to put the ELOG Key into my application.
- I am having trouble copy/pasting my ELOG key into my ELOG application.
- How do I use my ELOG application?
- My application is not working/I don't understand my application.
- I can't install or log-in to my ELOG application.
- I can't open/close a trip.
- The GPS on my device is not working (get in touch with the ELOG Application Supplier, for instructions on how to manually enter coordinates).
- Any troubleshooting needs, such as any error messages that appear in the application.

ELOG Application Supplier information will be listed on DFO's website at: [www.dfo-mpo.gc.ca/qualified/index.htm](http://www.dfo-mpo.gc.ca/qualified/index.htm).

## Software or Hardware Issues

In situations where the software or equipment used to complete the ELOG is non-functional, such as lost, stolen, defective or stolen telephones, tablets or computers, please refer to your licence conditions for details on the information to be provided in such situations, the procedures to be followed and the deadlines to be met.

## Closure of Sections Within the ELOG

The application allows for the individual closure of various sections of the logbook. The closure of the sections implies that you have verified that the information entered is consistent with what you want to declare. The closure of a section means that you will no longer be able to modify the information in that section from your software. Your licence conditions may require that you close a section of your logbook at a specific time that is different from the complete closure of your electronic logbook.

If the information in a closed section prevents you from continuing to complete your logbook, you will need to contact your application supplier to make the necessary corrections.

If the information in a closed section is incorrect and does not prevent you from completing your logbook, please submit your logbook to DFO as is and contact DFO to request that corrections be made to your submitted logbook. Please note that corrections made by DFO will not be reflected in your application. If you would like the correction to be made in your application as well, you will need to contact your application supplier. However, the application supplier will need to obtain approval from DFO before making modifications to your information.

## Fisher Identification Number (FIN), Licence Number and Vessel Registration Number (VRN)

In your software, be sure to enter your Fisher Identification Number (FIN), your Vessel Registration Number (VRN) or your Vessel Identification Number (VIN) (the VIN applies to Gulf region fish harvesters only) and your licence number exactly as they appear on your fishing licence or licence conditions. Missing or inaccurate data can cause issues with your information once received by DFO.

The instructions below detail the information required for submission into the application based on the context of your specific fishery:

- If you are fishing under a licence held by an Indigenous Community or Organization:
  - Indicate the FIN of the Indigenous Community or Organization;
  - Indicate the licence number used to carry out the fishing activity, i.e. the licence number of the Indigenous Community or Organization for which you are acting as the designated operator;
  - Indicate the VRN of the fishing vessel used to carry out your fishing activities;
  - Your name, as the designated operator on the licence, must be entered into the “Operator’s name” field of your ELOG.
- If you are fishing under a licence held by a company:
  - Indicate the FIN of the company;
  - Indicate the licence number of the company;
  - Indicate the VRN of the fishing vessel used to carry out your fishing activities;
  - Your name must be entered into the “Operator’s name” field of your ELOG.
- If you are acting as a substitute operator:
  - Indicate the FIN of the licence holder you are replacing;

- Indicate the licence number of the licence holder you are replacing or for whom you are acting as operator;
- Your name, as the current operator and licence operator, must be entered in the "Operator's name" field of the ELOG.
- If you are fishing under a partnership agreement (buddy-up):
  - Be sure to indicate the following in the fields provided;
  - The VRN of the fishing vessel used to carry out your fishing activities;
  - The FIN attached to the fishing vessel used to carry out your fishing activities;
  - The licence number attached to the fishing vessel used to carry out your fishing activities;
  - Indicate the name of both operators, separated by a semicolon (;), in the "Operator's name" field of the ELOG.

## Simultaneous Fishery

For Quebec, Maritimes and Newfoundland fish harvesters, if you are fishing under two licences simultaneously during the same fishing trip, you must complete two separate ELOGs, ensuring that you complete all mandatory fields in each of the sections of both of the ELOGs.

For Gulf fish harvesters, in the case of an Indigenous Community or Organization fishing multiple licences simultaneously, all required elements of the "Fishing Effort" section must be completed for each licence under which the effort is being conducted. If fishing under more than one licence number on the same vessel, during the same trip, the Fishing Effort section of the ELOG must be filled in at least once for each licence.

## Substitute Vessel

If you are using a Substitute Vessel, you must enter the VRN or VIN of the vessel you are currently using to complete the fishing activity and landing.

## GPS Position and Coordinates

Your software may have a function that automatically reads your position from your GPS. If your actual position does not match the position requested in the ELOG, enter the requested geographical coordinates manually.

## Comments

Enter any additional information that you may consider important in this field.

## Maps

If there are regional fishing area maps associated with ELOGS they will be found here <http://www.dfo-mpo.gc.ca/fisheries-peches/sdc-cps/nir-nei/elog-maps-cartes-jbe-eng.html>. This does not represent a full list of fishing area maps. This catalogue will be updated as new or amended maps become available. If the fishing area described in your licence conditions is not included below please contact your local DFO office. For all other questions, please contact DFO at the following email: [fishing-peche@dfo-mpo.gc.ca](mailto:fishing-peche@dfo-mpo.gc.ca).
